AMS Regular Augers

Regular auger bits are designed for ordinary soil sampling. The quick connect coupling system allows components to connect and disconnect faster with less hassle than threaded systems. Bucket augers provide outstanding durability and access to deeper depths. Bits of the regular soil augers are open providing entry of small soil clumps and relatively small rocks and particles.

Quick Connect

Quick Connect Regular Auger

Part#	Description
300.08	2-1/4" Quick Connect Auger
300.06	3-1/4" Quick Connect Auger
300.05	4" Quick Connect Auger

Threaded

Threaded Regular Auger

Part#	Description
400.08	2-1/4" Regular Auger
400.06	3-1/4" Regular Auger
400.05	4" Regular Auger
